

Air New Zealand

Award winning Air New Zealand (voted Best Airline 2010 Which? Magazine) has introduced the world's most innovative longhaul experience*, and as the airline that flies passengers on some of the world's longest routes, there's not much Air New Zealand doesn't know about longhaul travel!

Three years of development has resulted in an exciting new approach to travel – one that looks after everyone on the plane – from families to business travellers – to holidaymakers. Whether it's Air New Zealand's revolutionary new Premium Economy Spaceseat™ with unparalleled personal space, state-of-the-art Economy seats and Economy Skycouch™ or their award winning lie-flat bed in Business Premier – you can be sure of their uniquely Kiwi style and thoughtful touches.

Because they know simply offering chicken and beef won't cut it in future, Air New Zealand have done away with the usual rigid meal schedules and brought in the freshest and tastiest menus available at times that suit you – not when the trolley says. Think gourmet burgers in Economy, sharing platters in Premium Economy or how about steak cooked just as you like in Business Premier?

What's more, you'll be able to order tasty snacks and drinks 'on-demand' from your in-flight entertainment system – even while you are in the middle of a movie – like toasted sandwiches, houmous or smoothies.

The vast selection of activities on their new in-flight entertainment will keep even the most fidgety of flyers busy for the whole flight. Not only will you be able to catch the latest movies, they've also got box sets of all your favourite TV series, as well as multiplayer video games, an exclusive kids section and some of the latest sporting clashes. When you're ready to sleep you'll enjoy programmed mood lighting throughout the aircraft which has been designed to complement the experience from boarding through to relaxing and sleeping – improving the ambience of the aircraft.

Air New Zealand currently offer daily flights to New Zealand via LA or Hong Kong and onward to 26 destinations in New Zealand. You can even choose to go out one way and back via the other for a true Round the World experience. Whether you try out their new 777-300 planes from April 2011 or their current award winning on board service and product, you'll get to experience a truly special way to fly.

Flight Centre Says

Why we recommend Air New Zealand

A fantastic funky and fun flying experience reflective of the Kiwi persona – what better way to start your New Zealand holiday than being amongst some of the countries' greatest ambassadors from the moment you leave the UK.

Brand new Boeing 777-300ER aircraft operating the London – Los Angeles – Auckland route from April 2011 feature some great onboard product enhancements including, in our opinion, the best Premium Economy in the sky and the groundbreaking Skycouch™.

Excellent onboard dining and entertainment options regardless of in which cabin you choose to fly. Speak to your Airfare Expert today.

Business Premier*

Air New Zealand's Business Premier cabin delivers all the things travellers love, with a few fresh twists. To give the best sleep in the sky, the award-winning lie-flat bed is now even more luxurious sporting a new, thicker mattress, a fluffy duvet and full size pillows. Cabin and seat features have been enhanced to ensure Business Premier provides the most adaptable space, whether you're working, sleeping or taking it easy. There's also a fresh new on-demand cuisine and beverage service to suit each traveller's personal preferences.

- A luxurious leather armchair that converts to a fully lie-flat 6 foot 7.5 inch bed
- Ottoman footrest that doubles as a visitor seat and individual table
- Individual 12.1 inch touch screen entertainment system, includes USB, iPod and PC Power
- Innovative new menus created by renowned New Zealand chefs
- Premium selection of New Zealand wines
- Premium check-in and lounge access
- Chauffeur service or valet parking#

Premium Economy*

Air New Zealand's new Premium Economy offers unparalleled personal space that you can share with your companion or keep to yourself!

The design of their revolutionary Spaceseat™ means the person sitting in front of you can't recline into you. And rather than simply tilting back as it reclines, your seat slides forward too.

The seats that run through the inner space of the cabin have been designed for couples, so you can relax together, or face each other to share a meal. The seats on the outer space of the cabin offer more privacy.

- Revolutionary Spaceseat™ with unparalleled personal space and one step aisle access
- Hardback shell that stops recliners. Your seat slides forward and tilts to maximise space
- On-demand entertainment on a 10.1 inch screen, includes USB, iPod and PC Power
- Modern bistro-style menu including Tapas available alongside a selection of freshly prepared meals, on-demand snacks and drinks ordered at the touch of your screen
- Premium selection of New Zealand wines

Economy* Skycouch™

Whether you're a couple who'd like a bit of extra room, parents with a young child or a parent with 2 restless kids, you'll find our innovative new Economy Skycouch™ is the perfect solution. The Skycouch™ is a trio of Economy seats that together create a flexible space for whatever you want it to be – to relax and stretch out in – or for the kids to use as a play area. It's like having your very own couch on the plane. By booking this 3-seat wide space, you really can get the most from your longhaul flying experience.

- Specially designed Economy seats purchased as a row of three with an additional surface that creates a flat, flexible space to stretch out and relax in
- Ideal for families, acts like a couch on a plane
- 20 sets of Skycouch™ seats – first 10 outer rows of the Economy cabin
- Sleep pack including two large pillows, underlay and soft polar fleece blanket
- The same great benefits of Air New Zealand's new Economy class (below)

Economy*

Air New Zealand's new state-of-the-art Economy seats have been designed to provide a really comfortable rest. The armrest disappears right into the back of the seat (even at the windows), and the winged headrest now swivels more freely to better support your head. They've even added a specially designed sleep pillow that attaches to the headrest so that it won't slip out from under your head. You'll also find their new in-flight entertainment has loads more content that will keep you engaged from the moment you get on the plane to the moment you touchdown.

- Industry leading levels of comfort with a spacious 33 inch seat pitch on the 777-300 and 32 inch on the 777-200 aircraft
- Specially designed sleep pillow that attaches to your headrest and doesn't slip down
- On-demand touch screen entertainment with over 580 hours of content on a 10.1 inch screen, includes USB, iPod and PC Power
- New menu options served with greater flexibility including gourmet burgers and on-demand snacks and drinks

*Product descriptions relate to new B777-300 aircraft which will be flying London – Los Angeles – Auckland. #Dependent on booking class & type of fare. Chauffeur service valid within a 60 mile radius of London Heathrow airport. Valet parking valid for stay of up to 30 days.
