

Malaysia Airlines

Malaysia Airlines is always ready to welcome you to Asia and beyond with a smile and an award-winning service. With twice daily non-stop flights from London Heathrow to the Malaysian capital, Kuala Lumpur, Malaysia Airlines offers a choice of morning or evening departures and convenient onward connections to destinations across South East Asia, north to China and Japan and onwards to Australia and New Zealand.

The airline operates 53 services per week from Kuala Lumpur to Flight Centre's popular destinations of Australia & New Zealand, with services covering Sydney, Melbourne, Brisbane, Perth, Adelaide and Auckland.

Malaysia Airlines has a long history dating back to the end of the Second World War when a weekly air service was established to provide a faster connection between the key cities of Kuala Lumpur and Singapore, then part of the former British colony of Malaya.

Over the intervening years one constant that has always remained is the reputation and continual recognition Malaysia Airlines receives for the warmth of its service and quality of its on board product.

Malaysia Airlines is proud to be one of only 7 airlines to hold the highly esteemed Skytrax 5 Star ranking for 2011; the airline also won the awards for World's Best Economy Class and Staff Service Excellence for Asia at the Skytrax World Airline Awards 2010 as well as the title of World's Leading Airline to Asia at the 2010 World Travel Awards.

Passengers travelling beyond Malaysia will find a smooth experience awaits them at the modern Kuala Lumpur International Airport, whilst those flying on to Australia and New Zealand can, on certain fare types, enjoy a free side trip stopover within Malaysia when booking accommodation for the duration of the stopover. Ask your Flight Centre consultant for full details as terms apply, but choices include unwinding on the beaches of Langkawi, soaking up the culture and history of Penang, staying in traditional longhouses whilst exploring the jungles of Borneo, or visiting the world famous Orang-utan Rehabilitation Centre in Sabah.

Fly with Malaysia Airlines and you can experience the hospitality that won the World's Best Cabin Crew (Skytrax World Airline Awards 2009).

Flight Centre Says

Why we recommend Malaysia Airlines

A Skytrax Five-Star airline, Malaysia Airlines has won numerous major accolades for the quality of service provided by their cabin crew who are rated as some of the friendliest and most helpful in the sky.

The only major scheduled airline to offer direct flights from the UK to Malaysia. A great option not only for exploring Malaysia itself, but for travelling throughout South-East Asia, especially to destinations such as Bali, Vietnam or Cambodia which do not have direct UK services.

A generous 34 inch seat pitch in Economy Class provides room to stretch out, making Malaysia Airlines a great choice for longhaul Economy travel.

First Class

Malaysia Airlines First Class distinguishes itself apart from the other classes with its designer cabin space, private zone seating and plenty of room to stretch even for the tallest guests. These, coupled with an extraordinary level of service make for a truly exceptional flight experience.

First Class offers guests an unprecedented level of comfort. Seats are spacious, come with a massage feature and are fully adjustable to suit any preference. The private seating zone converts into an exclusive dining area for two and the main course is presented from an exquisite a la carte menu, created by star-rated chefs. For a taste that is truly Malaysian, sample Malaysia Airlines signature dish, Satay, or a local favourite such as Teh Tarik.

- Your luxurious seat folds out to a 180 degree fully flat bed with a 78 inch usable bed length
- Fixed shell design means the seat in front does not recline into your personal space
- Mood lighting can simulate the hues of day or night, to help your body adjust to different time zones
- Over 300 hours of on-demand in-flight entertainment choices on your personal 15 inch touch screen monitor; including up to 40 movies and 60 short features plus a selection of 200 CD's
- Gourmet fine dining experience served on delicate fine china
- In-seat AC laptop PC power outlet
- Access to Golden Lounges and premier check-in services

Business Class

Business Class offers travellers an award winning service and comfort to help them arrive rested and prepared whether they are flying for business or pleasure. The cabin features extra spacious and comfortable seats that are fully adjustable and also walled at the shoulders to create a private zone.

For those needing to work there is ample workspace and access to news, email and SMS via LCD touch screen monitors, whilst those wishing to unwind can relax with over 350 in-flight entertainment options to choose from including games, books, movies or music.

Enjoy a la carte dining from an exquisite menu prepared by star chefs and when it's time to rest, stretch out comfortably as your seat transforms into an 8 degree angled bed.

- Seat transforms to a 8 degree angled flat bed with a 76 inch usable bed length
- Seat pitch of 58 inch
- Fixed shell seat design provides privacy and personal space
- Electronically adjustable leg rest, recline and 4 way lumbar support
- Advanced cabin mood lighting
- A la carte gourmet dining experience
- In seat AC laptop PC power outlet
- 10.4 inch personal touch screen LCD monitor with over 350 on-demand entertainment options including movies, TV, music and games
- Access to Golden Lounges and premier check-in services

Economy

Economy Class comes with features designed to make guests feel comfortable and entertained while they enjoy award winning service and Malaysian hospitality.

A generous 34 inch seat pitch makes all the difference to flying and provides room to relax and stretch out. Guests have access to the same in-flight entertainment system as First Class passengers providing over 350 exciting options that include movies, music, video games and books.

For meals, guests can choose from over 15 choices that will cater to different taste buds and dietary requirements. Crew members are highly trained to ensure a safe and comfortable journey every time, so passengers can travel with complete peace of mind.

- Industry leading Economy Class 34 inch seat pitch
- Seat features lumbar support, foot rest and head-rest with side wings
- State-of-the-art personal, on-demand, audio visual entertainment system with over 350 choices including latest release blockbuster movies, short features, video games, music and books
- Satellite telephone at each seat
- A choice of tasty dining options
- Award winning Malaysia Airlines service
