

Scandinavian Airlines

As the national airline of three of the world's most imaginative and exciting countries, SAS is the perfect reflection of the characteristics of the region and people. In true Scandinavian style, the service is as individual as it is innovative; offering everything from time-saving internet check-in and mobile boarding passes, to comfortable, home-from-home international airport lounges and inspired on board cuisine.

To add to the pleasure of flying with SAS, the warm and reassuring care you'll receive on the ground and in the air, will be as genuine as it is enjoyable. It's one more thing that sets them apart and yet another reason to fly SAS.

Together with wholly-owned airlines Blue1 and Wideroe, SAS operates extensively between the UK and Scandinavia/Finland and domestically within Denmark, Norway, Sweden and Finland.
