

# Singapore Airlines

Singapore Airlines has grown from a regional airline into one of the world's leading carriers. The airline offers a young, efficient fleet, an educated staff attuned to quality, and a top ranked travel gateway, Singapore's Changi Airport, at the centre of an extensive route network. Singapore Airlines' history, home country, and customers all contribute to its success and future. With three services per day from London Heathrow as well as a daily flight from Manchester to Singapore, the airline offers simple and convenient onward connections to a wide range of destinations throughout Asia and Australasia. With in-flight service that even other airlines talk about, experience why Singapore Airlines is truly a great way to fly.

## Suites

Singapore Airlines Suites, exclusively available on board the A380, provide a privileged few with their very own haven of tranquility. Luxuriate in a lavish armchair hand-stitched by master Italian craftsmen Poltrona Frau. Or for the first time ever, experience the pleasure of sleeping on a standalone bed. Each cabin features sliding doors and window blinds, offering you the freedom to decide on the level of privacy you prefer.

- 12 private Suites
- 35 inch wide seat
- Standalone bed
- The finest wines and cuisine
- 23 inch widescreen LCD
- Krisworld on-demand entertainment
- USB ports and power
- Full-length wardrobe

## Business Class

The new Business Class is the most spacious the world has ever seen, with the largest seat and fully-flat bed in its class. The unrivalled space between each seat, providing you direct access to the aisle, is a hallmark of our unique 1-2-1 forward facing cabin layout. All the conveniences you would expect in an office are provided for in a centralized, all-in-one business panel, which includes an in-seat power supply and USB ports.

- 30-34 inch wide seat
- 55 inch seat pitch
- Enjoy finest restaurant style setting and culinary service at 30,000 feet.
- 15.4 inch LCD screen
- In seat power and USB ports
- These new products are fitted on Boeing 777-300ER, A380 and A340-500 aircraft

## Economy Class

With more space and intelligent features, the new Economy Class offers more comfort than ever. Innovative design minimizes intrusion into your personal space even as the passenger in front reclines, while ergonomic styling of the seat further maximizes knee and legroom. Savour a gourmet menu of delectable treats, accompanied by an unsurpassed selection of wines and beverages.

- 1,000 entertainment options on Krisworld
- 10.6 inch high resolution screen
- In-seat power and USB port
- 18.6 inch wide seat
- Soft, warm fleece blanket
- These new cabin products are fitted on 777-300ER, A380 and A330 aircraft
- Ice cream for everyone!
